## YACHT MAXI MILLIEN

Completed in March 2004 by dedicated owner, Robin (Electrical Engineer) and very experienced International Charter skipper. Designed and build as a top class charter yacht based on his experience in the Luxury Caribbean and Mediterranean charter industry.

Maxi Millien has been designed with the adventurous explorer in mind. Comfortable, fast and with a shallow draft she is the ideal yacht for fly-fishing expeditions to Islands, Atolls and Banks for small groups of adventures. She comfortably accommodates 6 guests in 3 double cabins all of which have separately controlled air-conditioners, their own DVD and TV, mosquito nets on the hatches and full en-suite services (Shower, basin and toilet).

Her comfortable saloon easily accommodates 6 guests, providing a popular social gathering point ideal for viewing the days' videoed events. A large cockpit area under a permanent awning provides another gathering point where delicious meals are enjoyed and evenings are spent relaxing telling tales of those that got away. A large spacious deck with 2 comfortable trampolines enables guests' ample space to relax if they aren't out fishing.

Skippered and cared for by owners Robin and Linda, Maxi Millien will provide you with an experience of a lifetime and an ideal way to explore the islands, atolls and exciting fishing of Mozambique, Comoros, Mayotte & Madagascar.

### The Yacht

- Catamaran: 14,5m - designer: Alexander Simonis
- Beam: 7,24m
- Draft: 1,16m
- Engines: 2 X 56 HP. In a independent engine room (not under any beds)
- Speed under motor: 12 knots
- Main sail: 72m<sup>2</sup>
- Spinnaker: 120m<sup>2</sup>
- Genoa: 60m<sup>2</sup>
- Fresh water tank: 500 liters
- Water maker: 200 liter/hour
- 12, 24 and 220 volts through out
- 7KVA and 20 KVA generator in sound proof enclosure
- Barbecue

### **Equipment for your comfort**

- 4 double cabins (standard double bed) with TV, DVD and CD player, en-suite bathroom (shower & Basin) and electric toilet, 1 cabin is used for crew quarters.

- 150 liters fridge + 120 liters freezer + ice-cube machine + micro wave + oven +dish washer
- 1 hatch and 2 portholes per cabin for continuous fresh air
- Linen and towels – excluding beach towels

### **Deck equipment**

- Fishing equipment
- 3,8 m Semi-rigid inflatable with 30 Hp Yamaha outboard with safety gear, hand held radio, Echo sounder / Fish finder and GPS
- 3.5 m Semi-rigid inflatable with 20 Hp Yamaha outboard with safety gear, hand held radio & GPS
- Hard top over cockpit
- Cushions in cockpit area and sun bathing mattresses
- 2 Fresh water deck showers

### **Electronic equipment**

- 2 Gig Pentium 4 computer
- H.P, combo printer, copier, scanner, fax-machine
- Simrad color screen with chart plotter, radar and depth sounder
- Simrad auto-pilot
- Simrad wind instruments
- Simrad flux gate compass
- Echo sounder

### **Communication**

- ICOM 501 VHF radio
- ICOM T10 SSB
- 2 VHF portable hand held ICOM radios for tender use

## ACTIVITIES

### Fishing / Tender Boats

Provided by means of 1 x 3.5 m inflatable with a 20 Hp outboard and a 3.8 m semi-rigid inflatable with a 30 Hp outboard. Both inflatables are equipped with VHF Hand held radios, Hand held GPS's and safety equipment (Capsize bottle with basic first aid kit, flares and basic survival gear) The larger of the 2 inflatables has a Echo Sounder / Fish Finder. The idea is that being the larger of the two vessels she locates the reef / drop-off and together the two vessels, with their crew, fish the area identified. This also ensures safety as each vessel acts as a backup for the other. Each tender is also provided with a small cooler box for drinks and a few snacks. Each GPS will have waypoints of reefs and drop-offs that will enable the tenders to be positioned in the area where fish are most likely to be caught. The guest most qualified will skipper tenders. Strict adherence to the skippers' recommendation & advice is mandatory, for the clients' own safety. Any change of plans must be cleared with the skipper before guests head off in an unplanned direction.

### Game Fishing while underway

Can be provided while under way from one point to another, in suitable areas, by trolling lures. Rods, reels and lures are provided. Anglers must understand that there are times when distance needs to be covered at speeds not conducive to angling in order to get to more suitable areas.

**NB:** Fish not required for the galley will be caught on a "catch and release basis" where every effort must be made to revive fish by towing it through the water and only releasing them when they have recovered well enough to survive.

**NB: Although alternative activities are possible the majority of the group determine the direction of the flow and those not in the majority need to understand that a yacht is not a resort with endless staff to see to a variety of activities all at the same time. This package is sold as a Fishing, Fly-Fishing trip or combination of these two activities.**
